# CONDITION OF THE MARKETS

Favorable Crop Reports and Recent Rains Cause a Decline in Wheat Prices.

Corn Fairly Active, but Weaker and Lower-Oats, Also, Tending Downward in Price-Hog Products Easier at a Decline.

### MONEY, STOCKS AND BONDS.

A Dull Market, with a Successful Drive to Lower Oregon Transcontinental, the Feature. NEW YORK, May 11 .- Money on call was easy. with no loans, the closing being offered at 212

Prime mercantile paper, 3122512 per cent. Sterling exchange dull but steady and un-

changed. The total sales of stocks to-day were 70,544 shares, including the following: Atchison, 11,645; Missouri Pacific, 2,629; Oregon Transcontinental, 13,140: Reading, 1,800; Richmond & West Point, 7,050; St. Paul, 3,400.

There was no change in the stock market this morning from its u sual duliness. though a few features were developed, and after the fractional decline from the "bear" hammering, covering of "shorts," with a little buying for long account, rallied the list, and the final changes were generally in the direction of higher figures. Commission pe opie were doing nothing at the opening, and the professional element again had full control, and being bearishly inclined, first prices were generally slightly lower than last evening figures, and the subsequent dealings were marked by a heavy tone, although the list as a rule was intensely dull the movement scarcely perceptable. The manipulation was centered upon Oregon Transcontinental and Atchison, and in the former was attended by considerable success, a decline of 11s per cent., to 341s, occuring in the first half hour. The impression upon Atchison was less marked, and a little buying soon started the list up again, and most stocks were carried above first prices on the rebound.

More animation was shown in the upward movement, but the market was dull at all times, only Richmond & West Point, besides the two stocks mentioned, displaying any activity what-ever. The strong features of the day were Rock Island and Tennessee Coal, and those shares scored a material gain for the day. The demand for stocks for the day. The demand for stocks increased in the last few minutes, but the close was quiet and firm at but slight changes from first prices. The majority of the list are small fractions higher, but Rock Island rose 1 and Tennessee coal 1 per cent. Railroad bonds were dull, and while the general tone of the dealings was steady to firm, a few issues were heavy and irregular changes of small fractions were made. The total sales were only \$667,000 were made. The total sales were only \$667,000. The sales of bonds for the week were \$9,758,000, against only \$4,769,000 for last week.

Government and State bonds were dull and

steady. Closing quotations were: Four per ct. reg. . 1294 Lake Erie & West. 174

TRADING AT CHICAGO. The Ups and Downs of the Market, with the

Range in Prices of Leading Articles. CHICAGO, May 11.-Wheat was lower, under the double weakening influence of the favorable erop report by the Agricultural Department, and a heavy and general rain over most of the country last night. The opening was 1½ 2 13c lower, ruled steady most of the session at the decline, later sold off 'se more, advanced 'se, and closed 1¼ clower than yesterday. There was very general selling, but at the same time there was good buying, and the first half bour witnessed a pretty active trade, after which the market ruled quiet and steady. Five boat-loads were reported taken for export at the seaboard, with prospects of more doing. Corn.was fairly

active, but weaker. The market opened at \(^{1}4\pi^{3}\)se lower than the closing price of yesterday, and sold off \(^{1}\)ge, ruled steady and closed \(^{1}\pi^{3}\)le lower than yesterday. Oats were weaker. First sales were at \(^{1}2\pi^{3}\)se decline. Offerings continued free, and although trading was fairly active, prices continued on the down-ward course, and a further decline of 4 2 40 was recorded, and the market closed easy at about inside prices. Only moderate trading was reported in hogs products, and the feeling was easier. Prices opened lower, though fluctuations were confined within a comparatively narrow range. The leading futures ranged as follows:

Dry Goods. NEW YORK, May 11.—Business in dry goods was light to-day though some agents reported a fair demand for summer fabrics, and jobbers fair demand for summer fabrics, and jobbers were delivering May goods on account of recent sales. The market was unchanged, but maintained a firm tone on cotton, with an upward tendency on coarse yarn goods, while increasing firmness was reported at the mill end of the line. Woolen fabrics were in moderate request, but clothing woolens were benefited to the extent of a favorable decision by the collector of the port in the matter of the classification of worsteds, which were adjudged to be dutiable as

## INDIANAPOLIS MARKETS.

The Trade of the Week Very Satisfactory, and the Outlook More Promising.

INDIANAPOLIS, May 11. Trade, in the week closing to-day, has exceeded expectations, and it will be counted as the best week of the year thus far. Dry goods men have sold good bills at satisfactory prices, which have taken on a steadier and firmer tone. With grocers it was an unusually busy week, and what is singular, there was not a fluctuation during the week in any of the staple articles. Sugars and coffees, however, carry a very strong tone. In the provision markets prices have been rather unsettled, but to-day were steadier, with a good deal doing in a jobbing way. Flour is in better demand, but no marked improvement in prices is noticeable. The hide market is still moving sluggishly. The wool market is active, prices having an advancing tendency. Oranges and lemons are in good demand at the prices quoted. In the produce market a good healthy business is in progress. Poultry is hardly as firm as in the middle of the week. Eggs are steady and selling readily at the prices quoted. Butter is plenty and cheap, and unless it is a very choice article it does not move readily. Early vegetables are more plenty, but prices have not weakened to admit of everybody indulging in them, consequently the demand is limited. Strawberries were not as plenty in the last half of the week as in the early part of it, consequently they ruled higher to-day than on Monday. Two or three car-loads a day are coming to this market, mostly from Tennessee. On increased shipments in here, old Irish potatoes have lost the advance of the early part of the week, and are again quite plenty. New potatoes come in slow, and sell slow at present prices. The seed market has taken on a quiet tone, and prices are easier on all descriptions of seeds.

The Indianapolis Market Report shows that 6,000 bushels of wheat were received to-day, against 1,800 on Friday. Quotations are practically nominal, so little is doing.

The Most Complete Newspaper in all Departments in the State of Indiana.

No newspaper in the West is more widely or more favorably known than the Indianapolis Journal. By the display of enterprise and strict attention to the wants of the reading public, during the great campaign of 1888, it has taken a leading position among the most prominent journals of the country, and is certainly among the best. Among the newspapers of the State it is pre-eminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana. and has correspondents in every town and village of importance. Its market report are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable. It is the only newspaper in the State owning and publishing all the news furnished by the two great press associations (the Western Associated Press and the United Press), in addition to which it furnishes an abundance of special service from all the principal cities of the country. It has been, and will in future be, the aim of the publishers to make the Indianap olis Journal a perf et and complete newspaper, deficient in ro department or particular. The r challenges comparison with any its contempo-

raries. No Indiana reader, certainly no Indiana Republican, should be without the Journal. While it is thoroughly and soundly Republican in politics, devoted to the interest of the Republican party the Journal will not allow its news to be collored by partisan bias, but will give the news of the day without fear or favor.

Owing to the prominence of Indiana in the next administration, the Journal will give particular attention to Washington news, which will be given far more completely than ever before. For this reason, if for no other, no Indiana reader can afford to be without it for the

next four years. In addition to its new features, the JOURNAL regales its readers with the productions of some of the best known llterary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to its literary columns, making it a paper for the household and home circle. Special arrangements have been made for features of this character, which will appear INSURANCE DIRECTORY in the JOURNAL during the coming year. These appear most largely in the SUNDAY JOURNAL, which is a special edition, and can be subscribed for and received exclusive of the DAILY JOURNAL.
